

The Max-Planck-Institut für Eisenforschung GmbH in Düsseldorf (Germany) invites **PostDoc** applications in the field of

Crystal Plasticity Finite Element Simulation

The project requires very strong background in the field of crystal mechanics, polycrystal plasticity in metals, and texture analysis.

We encourage outstanding and highly motivated candidates with strong records to apply. Excellent knowledge of the English language is required.

We are an equal-opportunity employer.

We invite candidates to send their complete cv including their 3 best publications via email as soon as possible to
