Doctoral research fellowships at the Department of Metallurgy and Materials Engineering

The Department of Metallurgy and Materials Engineering of the K.U.Leuven is currently inviting candidates to submit their application for the doctoral research programme. MTM offers a high level international research environment with research groups active in:

- [Advanced alloys and production processes](#)
- [Composites and ceramics](#)
- [Deformation processing and mechanical behaviour of metals](#)
- [Materials performance and non-destructive evaluation](#)
- [Surface engineering](#)
- [Thermodynamics in materials engineering](#)

We will invite 6 to 8 of the candidates to join our Department's doctoral research programme. The MTM selection committee will reach its decision after an evaluation of the candidates educational background and general aptitude for high level scientific work and after telephone interview. MTM doctoral researchers receive a stipend/salary of approx. 1550 € per month during their study period. If you would like your file to be evaluated in this selection, we ask you to send your CV, study results, TOEFL score, your letter of motivation and 2 names of persons who may act as a reference by February 6 to [Mrs. Katrien Baplu](#) by e-mail. Please take your time to examine the research activities of the different research groups (see list above at http://www.mtm.kuleuven.be/Research/index_E.html) and indicate in your letter of motivation which of the research fields would be of interest to you. We will make our selection by February 27. If you have any questions, feel free to ask Mrs. Baplu. We look forward to hearing from you.
