25th Jubilee Conference YUCOMAT 2024

We are very actively working on our next Jubilee Conference where we hope to gather our YUCOMAT community. This Conference includes the participation of renowned Plenary speakers, Oral presentations, Poster sessions and Symposia related to contemporary programs in the field of advance materials and nanotechnologies as well as an attractive social and cultural program. The first [list of confirmed plenary speakers](#) s already on our [website](#).

XIII World Round Table Conference on Sintering (WRTCS)

On behalf of the International Institute for the Science of Sintering (IISS), we would like to extend a warm welcome to all IISS members, delegates, guests, and other valued participants attending the World Round Table Conference on Sintering (XIII WRTCS 2024) which includes the participation of renowned Plenary speakers, Oral presentations, Poster sessions and Symposia related to contemporary programs in the field of sintering. As soon as possible we will announce more confirmed plenary speakers at the link: <https://www.iiss-sci.org/index.php/confirmed-plenary-speakers-2024>.

DEADLINE FOR ONLINE ABSTRACT SUBMISSION: May 1, 2024

We invite you to share your research in one of symposium sessions within five topics. Click below to submit your abstract. An early discount is offered before the regular full registration fee comes into effect so early registration is advisable till the May, 01 2024.

MDPI CONFERENCE REPORT YUCOMAT CONFERENCE 2023

We had a very productive YUCOMAT Conference 2023 thanks to a notable list of invited plenary speakers, and more than 180 lectures were held in the form of oral and poster presentations:

Venue: Herceg Novi, Montenegro

Herceg Novi is a beautiful little town on Montenegrin seaside, located at the entrance to the Bay of Kotor. It is often called "The City of the sun", because this small town can boast more than 200 days a year of sunshine.

The centre of Herceg Novi is its Old Town (Stari Grad), decorated with buildings dating back to the epochs of Sahat-Kula (1667) and Kanli-Kula (1483). Fortress Spanjola (1538) and Fortress Forte Mare (1687) are only a part of the cultural heritage of this renowned town. Pleasant ambience, in the dense Mediterranean vegetation of palm trees and oleander right next to the main promenade, on the seafront, is where the famous [Hunguest Hotel Sun Resort](#), at which the Conference will be held, is located.

See [here](#) how you can get to Herceg Novi!
